

ULSTER COUNTY GOES "OVER THE TOP" AGAIN

Red Triangle Fund Allotment of \$30,000 is Exceeded by Several Hundred Dollars, as The Freeman Predicted It Would Be, and the County's Reputation for Practical Patriotism is Kept Up.

Ulster county has done it once more! Right on the heels of the Liberty Loan, which it over-subscribed by nearly 40 per cent, it has gone beyond the sum asked of it for the Y. M. C. A. War Fund. In spite of the exhaustion due to the strenuous work for the Liberty Loan and certain disadvantages and obstacles from outside, the people saw that the real needs of the men who are to do their fighting were of paramount importance and that any resentment, however just, would merely injure the cause of liberty. So, with a most commendable spirit, and a broad vision that was directed toward ultimate results, the people of the county have again responded to the call on behalf of their country by doing more than was asked of them. There will be more to do in the future. Sacrifice has only just begun, but when it is demanded Ulster county will be right there, ready and willing to do its share and more than its share, sweeping aside obstacles from within or without and directing its efforts toward the thing to be accomplished. That is in accordance with Ulster county's reputation and practice in the past, a reputation and practice that Ulster county people will keep up despite any handicap that may be encountered.

There was a superabundance of enthusiasm evidenced on the part of the men gathered for the final dinner and closing reports of the Y. M. C. A. War Fund Campaign, at the association building last evening, that promised full if not over-subscription of the amount needed. And the prophecy was well fulfilled, for the complete total reported, with some outlying districts to hear from, was \$30,595.49.

The great improvised dining room was made, by the ladies, especially attractive for the last of the campaign, the table decorations being more than ordinarily handsome. And apparently every place was filled at the tables.

Directly following the serving of the dinner, which was interspersed with several Rotarian songs, Harry Elmendorf at the piano, and no end of jollity, Mayor Canfield, chairman of the committee, called the assembly to order and asked for the reports of the various captains, which resulted as follows, many of the announcements being greeted with continued and vociferous applause:

	Previously acknowledged	Monday	Total
Team 1, Capt. Lowe	\$1,337.20	\$364.60	\$1,701.80

The pennant for the evening went to the Boys' Work members, and the final disposition of the pennant, for the full week's work was to Mr. Matthews' Team 7. There was tremendous cheering over this, and Mr. Matthews said he was glad his team had won the pennant, not for the sake of the prize but because they had been privileged to do that much for the cause.

The following special gifts were announced for the different teams, by their captains:

Team 1.—From Miss Boyd's Class at School No. 8, \$10.
Team 2.—\$25 from the Fair Street Reformed Church. In making this announcement, Mr. Abrahams who spoke for the team stated that the Rev. Mr. Seelye had contracted a severe cold on Sunday while at work and was unable to be present, but he sent his regrets that he must be absent, and his best wishes. Three cheers were given immediately for Mr. Seelye.

Team 3.—Herbert Brush Company, \$107 and Roundout Lodge, \$10.
Team 4.—Ladies' Aid Society of the First Reformed Church, \$50; Henrietta Wynkoop Guild, \$30.

Team 6.—Christian Endeavor, Church of the Comforter, \$5; Ladies' Aid, Temple Emanuel, \$10; Ladies' Aid, Ponchoke Union Church, \$10; Nurses' Kitchen Home, \$10; Admet Bible Class, First Presbyterian Church, \$10; Men's Bible Class, Fair Street Reformed Church, \$10; S. Fair Street Reformed Church, \$30; Men's Bible Class, Trinity M. E. Church, \$10; Nitro Powder Company Employees, \$150.

Team 8.—Albany Ave. Baptist S. S., \$10; Rose, Gorman and Rose, \$19.25; Spencer's Business College, \$25.85.

Much merriment was caused when Captain Watts, stopping for breath after announcing the many contributions from the various women's organizations, was interrupted by the mayor who proclaimed that he saw where Mr. Watts was put into office for life.

Attention was called to two gifts: one that of a valuable oil painting, the other of a horse, a live horse. It was voted that it should be left to the executive committee to dispose of the painting in such way that the largest possible sum for the same be turned into the campaign treasury. As for the horse, the donor had a son in her country's service. She had given what she could in money, and also gave this horse, for whatever it could be sold for, and the sale for \$100 was immediate. More cheering.

	The report from the county towns was as follows:
Gardiner	\$204.40
Ulster	272.35
Esopus	57.75
Rosendale	181.30
Saugerties	2,059.00
Shandaken	281.75
Woodstock	72.10
Shawangunk	232.05
Olive	90.34
Hurley	181.50
Total	\$3,624.54

When, following the quick addition of these who had taken down the returns, it was announced that the goal of \$30,000 had been passed, the cheering and shouting was fairly deafening, and then, as though by common consent the entire gathering sang the Doxology.

That brought a realization of the real situation and then Mayor Canfield called attention to the fact that with Mr. Thornberry, the secretary of the Kingston Y. M. C. A. already working in the service, it was thought needful to have some one connected with the head organization to help in putting over this campaign. Mr. Simmons had been sent to Kingston, and every worker knew his untiring efforts in behalf of the local campaign. He was called on, after being thanked, for a speech.

After cheering various individuals, the ladies, and the results, the entire gathering stood and sang America, and were then dismissed with the benediction pronounced by the Rev. Putnam Cady.

SIFT SPARTANBURG MEN FOR OVERSEAS

Camp Wadsworth Doctors Weeding Out Defectives in Both Rank and File—Lieutenant Snyder is Transferred to Active Service Regiment.

A sort of selective draft is going on in Camp Wadsworth at Spartanburg, S. C. In accordance with the policy announced some time ago according to a dispatch to the Sun today and when the Twenty-seventh Division gets its orders for overseas duty it will be composed exclusively of the most carefully picked officers and men.

The officers and men have been carefully scrutinized as to both physical and mental fitness for the duties they may be called upon to perform and every one found in the slightest degree below the high standard has been set aside.

The 107th Infantry on Sunday transferred 158 men to the First Infantry and 29 to the Twelfth, making 187 in all. New men will be drawn from these and other surplus regiments to bring the 107th back to its full strength.

Among the transfers of officers are noted that of First Lieutenant Jesse R. Pawling from the 107th Infantry to the Tenth Infantry, and First Lieutenant Dr. Frederick Snyder of this city from the Tenth Infantry to the 107th Infantry.

MURPHY WRITES OF "Y" WORK IN CAMP

An interesting account of the work of the Y. M. C. A. among the members of the naval reserve stationed at Pelham Bay is contained in a letter written by Andrew J. Murphy, Jr., to a friend in this city. Mr. Murphy, who is one of Ulster Academy's most famous athletes, is now a member of the Probation Regiment, Naval Reserve Training Station, Pelham Park, N. Y.

Mr. Murphy writes that in camp there the Y. M. C. A. has a tent and the members of the camp can obtain books and magazines and other reading matter from the "Y." The "Y" also furnishes the boy with free writing paper and envelopes and a place to write. At the time he was writing his letter there were fifty other boys engaged in the same way while a like number were gathered about the piano singing songs and having a general good time. He writes that many of the boys in camp have subscribed to the Y. M. C. A. war fund, realizing the good work that is being done by the association.

To give the folks back home a slight idea of the weekly program furnished by the Y. M. C. A. he enclosed a printed program gotten out by the "Y" of the events scheduled for this week:

Sunday religious services are held with Chaplain John N. Mark as speaker and a Catholic service is also held in Mess Hall No. 2, Probation Station, conducted by Father Thomas McGrath.

The program of the week is given below:

COUNTY LABORATORY AND MILITARY HOSPITAL UNIT

Both Are Needed at Once to Be in Readiness for Return of Soldiers and Sailors Who Have Contracted Tuberculosis—State May Expect 20,000 Such Men in Six Months.

At the annual meeting of the Ulster County Committee on the prevention of Tuberculosis, held at the City Hall Monday evening, two tremendously important matters came up for consideration. And whether interested in the fight against tuberculosis in the past, or not, every citizen of this county should read of the meeting last night.

In addition to reports and election of officers, the matter of reopening the County Bacteriological Laboratory at once, and the immediate need of making proper preparation for the return of soldiers or sailors who have contracted tuberculosis in cantonment or at the front, came up for discussion and action.

It was shown conclusively that there is now a crying need for the reopening of our laboratory especially in the interest of better and more speedy tuberculosis work. As no male bacteriologist can be had anywhere in the country today, it was the sense of the meeting that the securing of a competent woman to do the work, would simply be along the lines of all war work today in that where it is possible women must take up work that they can do, where men doing the same work have been taken in the service. It was unanimously voted, that the chairman, the Hon. Joseph M. Fowler, appoint a committee of five to go before the board of supervisors now in session, and urge the reopening of the laboratory.

The further immediate and desperate need of this action was emphasized in the presentation of the state of affairs relative to our soldiers, as given by Dr. A. A. Stern.

Dr. Stern stated that it was estimated, on scientific basis deduced from the experience of France and England, and now made doubly serious with the spread of this disease, that within six months this state may expect returned to its homes or hospitals, at least 20,000 men infected with tuberculosis. These men may be expected to begin to return in considerable less than the six months.

No ordinary hospital may, according to a reasonable and wise law, care for tuberculosis patients. Nor should the men of this land who have offered their lives for their country be asked to return to their homes, there to spread the disease, and also to run the chances of anything short of the best possible and most up-to-date scientific care. Yet our present tuberculosis hospital, even if it were desirable to put our military men in with the present patients, would be absolutely inadequate. But there was no doubt in Dr. Stern's mind—and by roll call all agreed with him—that these men should be provided with a place where they would feel that they were cared for as the soldiers and sailors of this land should be cared for, in a military unit. The need is imperative and immediate. If we are to be ready for the first of our boys who shall come home to us with this dread disease, and it was considered that it would be deplorable indeed that it would be such should be beyond words if any such should come home and not have ready and waiting for him this care in the hospital of his own county. It was voted, unanimously, that a committee should be appointed to at once confer regarding this matter and the new law requiring each county to maintain and operate a Tuberculosis Hospital, with the board of supervisors.

The committee so appointed was made up as follows: Chairman Joseph M. Fowler, Dr. A. A. Stern, Dr. Mark O'Meara, Dr. A. C. Gates, the

Rev. Dean Hickey, Sam Bernstein, Dr. Dederer and Mrs. C. N. Reed.

As to the special consideration of the taking over of the hospital by the supervisors, it was the sense of the meeting, as it has seemed to be the sense of the community in the past, that the present manner of operating the hospital, accomplishes the greatest good. However, to come under the provisions of the new law, it will be necessary that the county maintain the hospital, and it will further be asked for the necessary addition, at once, to be prepared for the condition so soon to be forced upon us by this war.

Another matter of importance, which, like the laboratory, shows up much larger than ever before, was the on-coming Red Cross Christmas Seal Sale. The seals are now in the hands of the committee, the mailing list is ready to be sent to New York for the preparation of letters and necessary advertising, and the county campaign is also ready to be launched. Having read the foregoing it ought not to be necessary to ask, certainly not to urge one single person to buy Christmas Seals to the limit of their means whether or not they give any Christmas presents this year. Every post card and letter can carry the message, as well as a package.

The reports for the year of special interest to all were those of Dr. Gates, superintendent of the Hospital; Miss O'Shea, visiting Tuberculosis nurse and treasurer; Cornelius Hume.

Dr. Gates' report was up to Sept. 30th, 1917.

Oct. 1916, 19 patients in the hospital; received during the year, 42, making a total of 61.

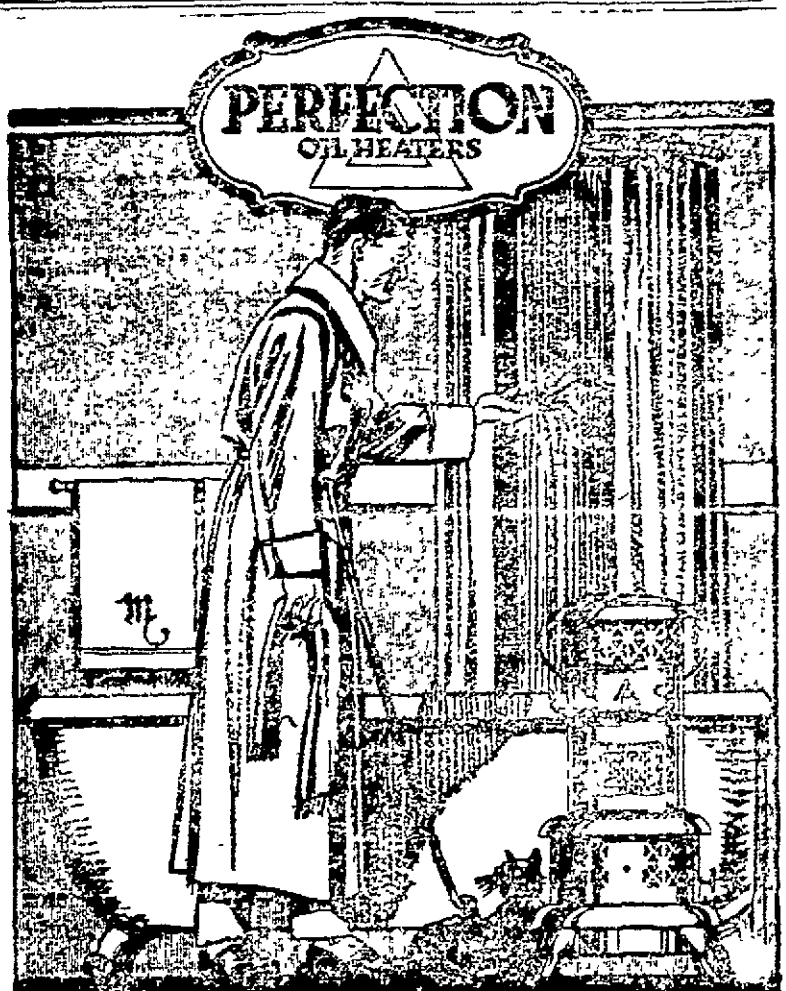

The majority of cases were advanced cases, the patients being beyond middle life. Therefore while it was possible to give relief and to record improvement it was impossible that such cases could be self-sustaining. The total number of cases' care for the year had been 7,878, the largest since the founding of the hospital by 19 per cent. The cost of maintenance for the year had been \$9,673.23. The cost for patient per day had been \$1.23 only 1 1/2 cents a day over last year. This increase had been due to rise in price of food, and more days' care, but it had been kept to that figure because there had been some reduction in other maintenance payments for instance no large insurance payments had come due this year. The same corps of nurses and helpers were at the hospital, but for the past two or three months, there had been no orderly, that work being taken over by patients able to do it, thus saving wages and maintenance. The coal had been paid for out of this year's budget. Here, as everywhere else, the merchants and the private citizens had shown their interest in the hospital by making the prices for supplies just as low as it was possible to do so, foregoing usual profits.

The washing machine recently installed and the zinc iron were proving great labor saving and time saving devices. While the garden had been increased to two acres of land, it had not come up to expectations probably due to lack of fertilization. Still it had helped greatly in keeping down the cost of maintenance. The lack of local laboratory facilities was found to be a considerable handicap.

The report of the treasurer, Cornelius Hume, summed up was as follows:

Cash on hand, June, 1916, \$2,044.59

RED CROSS APPEAL FOR MORE KNITTING

The Ulster County Chapter of the Red Cross is in receipt of the following appeal just out from the National Red Cross War Council, through the Atlantic Division:

"It is imperative that all the sweaters, wristlets and socks that can possibly be made by the women of the country should be turned into the supply department at the earliest possible date. With the cold weather coming, the demand for the sweaters, especially, has been beyond the capacity of all our resources to supply."

"We have forwarded promptly all knitted articles received from the chapters and have, in addition, been compelled to buy in the market, 650,000 sweaters, of which about 250,000 have been delivered. These sweaters are machine made and the yarn used is a mixture of cotton and wool, so that it does not withdraw any considerable amount of yarn from the women knitters of the Red Cross."

"We are buying all the yarn we are able to secure that is suitable for sweaters and sending it all to the chapters as fast as we can get delivery of goods. We have received from the chapters about 200,000 sweaters and approximately the same number of machine-made sweaters all of which have been delivered to the men in the camps and training stations, with the exception of a few thousand which we have had to send to France."

The requests of our organization in France for sweaters and knitted goods have had to remain unsatisfied on account of our inability to secure enough for men in our own army and navy. We call upon the women to give us their very best effort from now on until at least January first that we may be able to furnish our own men with comforts and have some to spare for the dire need in France."

It should be added that the sleeveless sweaters without collars are much preferred as they keep the body warm without interfering with drill and without the danger of weakening the throat so as to superinduce tonsillitis.

All are invited to come and enjoy the supper and entertainment. No admission will be charged but a collection will be taken. Other refreshments will be served.

Mrs. J. Bell and children of Whiteport spent Sunday afternoon with her brother, Willis DuBois, and family.

A prominent credit man recently said that he considers A Merchant who still clings to Horse and Wagon Delivery a Bad Risk.

The profit and loss account of America is being written by machinery. Methods that made men rich yesterday will make them poor today. The nose-bag has no place in a progressive community.

With corn at one dollar a bushel and gasoline at twenty odd cents a gallon the most extravagant truck is a money saver. But the

is the thriftiest truck ever built. A penny counter, a general expense reducer. The greatest single force for better business that the past year has witnessed. At this moment when conservation of energy, time and dollars is so vital to national welfare, when merchants are making so many unexpected outlays—the Maxwell is fighting for economical administration, laboring day and night at a minimum wage and furnishing competent and reliable transportation at the lowest load cost at which goods have been carried in our time.

Maxwell maintenance and repair bills are the lowest of record. It furnishes American Commerce, never so sadly in need of labor, a truck which even a boy can operate and understand.

Just the right size for the average firm. 2400 pounds. But muscled for giant burdens. Worm drive—a feature hitherto associated with the highest priced trucks.

Sold under the same guarantee as \$5000 trucks are. Electric lights and generator. 10-foot loading space. 16 miles to the gallon. The lowest priced one-ton truck in the world and sold on liberal terms. \$985; and it will earn its cost out of the savings it effects.

Pays its way from day to day.

ULSTER CO. MEN AT CAMP GORDON

List of Those Sent From Camp Dix to Georgia Last Week—Farewell Dinner to the Men Who Went South.

Camp Dix, N. J., Nov. 16.—Not having anything to do so thought I would drop you a few lines telling you how things are at Camp Dix.

On Thursday evening, November 15, there was a dinner served under the supervision of Mess Sergeant Gull and Cooks Roe, Wolf, Weber and Chambers and their assistants in honor of the boys who departed from our company for Camp Gordon, Augusta, Ga., today. The dining room was decorated with flags and hollies which sure made some appearance. In the center of the room was a large sign painted by Sy Bockman, which bore the inscription "Good Luck."

Everything was run off in the best of style. After dinner amusements of all kinds were run off, in which Harold Upright did the honors at the piano and Jack McCutcheon rendered songs, dances and monologues.

At 9 o'clock the boys of Company M who were to leave for the same place came to our barracks and joined us in our pleasure. Later in the evening there were several boxing matches between Company L and Company M.

When the Company M boys left, which was rather late, they gave three cheers for both companies and their commanders which ended a night's fun.

The menu was as follows:

Chicken Fricassee
Creamed Mashed Potatoes With Gravy
Bread Pudding Stewed Carrots
Bread, Butter, Coffee
Creamed Onions Cranberry Sauce
Grapes, Ice Cream, Cider
Cigars, Cigarettes, Etc.

The honored guests were: Capt. L. W. Card, Lieut. E. B. Kilmer, L. C. Herriek, R. T. Curtis, Beuchat, Schaeffer, M. D. C., Sherman, Sarount, Locke and Capt. Briggs.

Respectability.

WAR AT A GLANCE

These were the "high light conditions" existing today in the various theaters of war:

Italian front.—With the Italian lines holding along the Piave river, the invading Austro-German armies mass troops and guns for an encircling drive in an effort to get in the Italians' rear from the north. Violent fighting is in progress.

Western front.—All along the Belgian front a gigantic artillery duel rages, indicating a renewal of an infantry drive by the allies there soon. A German retreat is predicted by military experts.

Turkish front.—Steady pressure by the British continues in Palestine and Mesopotamia, with the Turks falling back.

Macedonian front.—Austro-Hungarian and Bulgarian troops began attacking in southern Albania and military critics in London believe that a Teutonic offensive will be opened on this front.

Eastern front.—Absolute quiet prevails.

Russia has found a new "Man of the Hour." He is General Kaledine, Cossack commander. Delayed dispatches reaching Washington today from Tormeo say Kaledine controls the entire Don Cossack region and is holding the entire Russian coal and bread supply.

The American destroyer, Chauncey was sunk early Monday morning in foreign waters in collision with the probable loss of 21 lives, the navy department announced this afternoon.

Bayona Returned to Camp.

Peter Bayona has returned to Camp Dix after spending a four day furlough in town. Mr. Bayona is stationed in the Quartermaster Corps at Camp Dix, Wrightstown, N. J., and was a member of the second contingent from this city.

Newburgh Needs \$5,000.

Newburgh is now within \$5,000 of its quota for the Y. M. C. A. war fund. It was announced Monday, and it was decided to hold the campaign open until Wednesday to secure the amount, if possible.

Can Check Hunger.

According to an Italian physician, the channel from the mouth to the stomach is the seat of the senses of hunger and thirst, which he claims to have suppressed by cocaine injections.

Nurse Saves "Death-Door" Institution Babies

Infants Turned Over to Her With Death Certificates Recover Under Scientific Mothering.

There is a quiet little nurse in the bureau of child hygiene of New York city who may be said to have brought the dead to life.

She has kept alive babies who were "officially" dead. When she undertook their care she was given their death certificates and told they would probably die before she reached her destination with them.

Three years ago the nurse went to a foundling asylum where the dotsam and jetsam of humanity washes up into the white wards. She asked to be shown the babies who were classed as hopeless, whom the doctors had given up for dead.

There was a group of them, many only a few hours old, but all doomed. The doctor's chief service for them would be to sign their death certificates. Out of this forlorn group she selected the most forlorn. It was marasmic, like all the others, only a shade thinner and more puny.

By arrangement with the managers of the institution the nurse was allowed to take the baby with her. But she was provided with its death certificate, so sure were the physicians that the child would die in her arms.

By a seeming miracle the baby lived until the nurse reached the home of a woman who had been chosen to "mother" it. The woman had children of her own, and she knew that mothering includes fondling and petting. Her home was under close supervision, and she was responsible to the department for its cleanliness and for her own conduct.

years the nurse has kept close watch over them. She has shown that often the child whose heritage seems to be death can be saved if it is given the personal and intimate care that only a woman can give who has time to "mother" it.
Her experiment in life saving has been so successful that the managers of the asylum are about to adopt this plan for the caring of the "death door babies." They will find homes where the infants who do not respond to institutional care can be looked after and given a chance, no matter how slight it may be.
This is only one of the hundreds of humanitarian services that nurses find open to them.

You Must Speed Up.
Dr. James, the eminent psychologist of Harvard, declared that most men use less than one-third of their power. They resent demands that call forth more than the average and, of course, remain average. It's the challenge of the unusual that goes deep enough into life to increase your worth. General wage increase is an evidence of the rise in living costs. Economically you may be poorer than you were with smaller pay under different conditions. It's when you receive an increase that others don't get that shows you more deserving. It's speeding ahead of the average that shows the stuff that's in you. You must speed up to show it.

Use Brain and Brawn.
Special talents give promise of greatness but so often they end in vain prophecy. The world is full of people with special gifts, but many of them are never heard from. Genius without push leads to a soiled life. Better be a man with ordinary talents and push than a wonder zone to seed. Get filled with the idea of great achievement and then set out to realize your dream. Use

your brains and your brawn. Working together this is a combination that can defy discouragements and win success. Make the mind express itself through a willing body and you will leave your mark in history. Spunk is the thing that will do it.—Pennsylvania Grit.

A New Parable.
A certain man had much land and many flocks. At the season of the year he called his steward and said unto him: "Come thou with me and we will overlook the flocks; for behold all the flocks and behold all the young of the flocks. Let us see that the young are well fed, well bred and well led in right paths. For, lo, my wealth is with the young." So the master and his steward gave much time and many days to the care of the young, and they grew in strength and numbers until they filled the pastures of the valleys.

Laughing at Trouble.
"When a man tells you to laugh at trouble," said Uncle Eben, "he always means your troubles are not his."

The First Headlight.
The first headlight was carried not by a locomotive, but by a winged insect—the lantern fly. Nobody knows just why the lantern fly carries a lantern. Very likely it is for the purpose of notifying insects of like species and opposite sex of its whereabouts. But the contrivance is wholly unique of its kind. The front part of the lantern fly's head is extended in such a way as to form a hollow, bulbous structure that (in a dead-and-dried specimen) has a paperlike consistency. When the insect flies at night the paper bulb is illuminated. By what? Nobody can say, except that it is a phosphorescent light, and the nature of that is a puzzle to science.

Some Historic Markers.
Vienna boasts the possession of the pencil with which Napoleon I. marked the localities of coming battles during the Austrian campaign. Other pens of international renown are treasured by the Empress Eugenie and the family of Lord Bangor. That in the keeping of the empress was used by the 14 plenipotentiaries who signed the treaty of Paris in 1856. It was made

from a quill of a golden eagle's wing and is richly mounted with diamonds and gold. The Bangor quill-pen was used by the high contracting powers in signing the treaty of Vienna.

When Are They Halfsteins?
A well-known New York artist visited a farmer friend of his who had among his stock a number of Holsteins, the first he had ever seen to know by sight. He vastly admired their distinctive black and white color scheme and rambled along looking at some other breeds. Presently he came to one all black which riveted his attention. "Say, John," he inquired seriously, "if they are Holsteins when they are half black?"—Judge.

Question of Rights.
People generally understand that their rights end at the point where the other fellow's begin; but the trouble comes in determining the location of that point.—Exchange.

HOUSE AFIRE
TWICE TO-DAY

Fire in the bedroom on the third floor of the residence of Jacob Schaffertick at 22 Gill street shortly after 7 o'clock this morning caused an alarm of fire to be rung in from box No. 17. Cordis Hose Company and the fire truck from the central fire station responded. The firemen found the fire had started from a bed in the bedroom and it is thought that it was caused by a lamp exploding. The house is three stories in height and is one of a row of three houses on Gill street. The fire was confined to the back bedroom on the top floor and the firemen used chemicals to extinguish it. The damage was estimated by Fire Chief Chipp to be about \$100 and is covered by insurance. At the time of the fire Mrs. Schaffertick was alone in the house and the other members of the family had gone to work. About half an hour later another fire was discovered on the third floor in a closet in a bedroom and a still alarm was sent into the central fire station and the auto truck responded.

AFFIRMS DECISION
OF SURROGATE GILL

Denying Contestants of the Will of the late Albert Carnright a Trial by Jury—Demand Was Not "Seasonably Made"—Review of the Case.

The appellate division has affirmed, with costs to the respondents, the decision of Surrogate Gill, in the matter of admitting the will of the late Albert Carnright to probate. The appellants sought to obtain the reversal of the decree upon the grounds that as contestants, the surrogate improperly denied them the right to trial by jury.

In affirming the decision of Surrogate Gill, the opinion states that the surrogate was justified in denying the contestants' demand for a trial by jury, because this demand was not "seasonably demanded."

Facts in the Case.

The citations for the probate of the will were returnable in the surrogate's court on September 11, 1916. On that day the testimony of one of the subscribing witnesses was taken and the proceeding adjourned to September 20, on which date this witness was further examined and the testimony of other witnesses was taken.

On this date the testimony on behalf of the proponents was closed, and the will was offered in evidence. Contestants' counsel then stated that contestants made a formal objection that the execution of the will had not been properly proven, and that the contestants had objections which they would like to file to the probate of the will, and would like to file them in writing, and would do so on that day.

The surrogate then stated that as the proof then stood, the will would be entitled to admission to probate. Objections to probate were on that day served and filed, stating that the testator was not competent to make a will; that the same was obtained by undue influence and was not properly executed, and that the instrument was not the last will and testament of the testator.

On September 28 the contestants appeared and asked permission to file amended objections, which were in precisely the language of the objection filed September 20, with the addition thereto of a demand of a trial by jury. The surrogate denied this application and the contestants excepted to the ruling. Later a trial was held before the surrogate, who rendered a decision admitting the will to probate. It is from this decision entered that the appellants appealed, and in which the surrogate's decision has been affirmed by the appellate division, with costs to the respondents.

Attorneys in the Case.

The appearances were as follows: For appellants, Benjamin Rowe and County Judge Jenkins of counsel. For respondents, Brown T. Davis and Corporation Counsel William D. Brinnier, Jr., of counsel.

Appellate Division's Decision.

The decision of the appellate division, in part, follows: The contestants had the unquestionable right to a trial by jury in case they seasonably demanded the same. (Code Civ. Proc. 2583) but if they desired a jury trial of any issue they were required to demand it in the objections which were required to be filed at or before the close of the testimony taken before the surrogate on behalf of the proponent, or at such subsequent time, as the surrogate might direct. (Id. Sec. 2617); and a jury trial was deemed waived unless thus seasonably demanded. (Id. Sec. 2587.) (Eaton on Surrogate's Courts, p. 239.) Thus the law fixed the time when a demand should be deemed to be seasonably made as September 20, the time when the objections were filed. The demand made September 28th was therefore not seasonably made but was too late, and the surrogate was justified in denying the contestant's application to file the alleged amended objections. Whether the filing at a time subsequent to the filing of the original objections, of additional or amended objections, under permission of the surrogate's court, would entitle contestants to incorporate therein a demand for a jury trial, when the same had not been previously demanded, is not before us for determination. A demand for a trial by jury was no part of the objections, and incorporating in the objections sought to be filed a demand for a jury trial did not constitute the amended objections, or in any way alter the issue to be tried, or retest the contestants with the right to a jury trial which they had waived. If such practice was admissible it would be subject to repetition and the proponents could never know prior to the actual taking of evidence, whether to be prepared for trial upon an adjourned day or whether the same would be postponed by the making of the demand for a jury trial.

The contestants also claim that the question of waiver is to be determined under Section 1009 of the Code of Civil Procedure which by Section 2770 is made applicable to the subject, and that it is not to be determined under the sections above cited. Section 2770 of the Code of Civil Procedure makes the other provisions of the act applicable only where a contrary intent is not expressed in or plainly implied from the context of Chapter 18 relating to surrogate's courts and the proceedings therein. The sections of the code first above cited having specified the act which should constitute a waiver of the right to trial by jury, exclude the application of Section 1009 thereto, as it is implicitly waived in 1909 applicable whenever such trial is demanded. The surrogate appears to have been fully justified in the ruling which he made, and the decree appealed from must therefore be affirmed, with costs to the respondents.

SHADER WAS A
GOOD SAMARITAN

And Like Some Was Falsely Accused by Man He Befriended But Finally Received Just Dues—Sergeant Murray Plays Same Role.

Timothy McCarthy of Saugerties was found helplessly drunk on Broadway near Dederick street, at 2:45 o'clock this morning by Officer Shader, who had Timothy conveyed to police headquarters to sober up. Tim also had a roll consisting of \$82 which Officer Shader removed and turned in at the police desk for safe keeping.

When Tim was brought in to police headquarters later to his record inscribed on the police blotter he informed Sergeant Phinney that he was sorry to report that the officer who had arrested him had also robbed him of his roll of about \$80. This tale he also told to Recorder Lang when arraigned in recorder's court, but was thunderstruck when his roll was returned to him and he was informed that it had been removed from his person to prevent him being robbed of it, which was one of the reasons why he had been removed to the police cell.

Tim said he had been working in Millbrook but came to Kingston on Monday afternoon, and then followed the same old story of meeting a few friends and having a few drinks. Recorder Lang held him at police headquarters with instructions to the police to see Timothy safely aboard the next train for Saugerties. John Hanrahan of Jockey Hill came to Kingston the other day and got drunk and for his own protection was locked up in the county jail by former Sergeant T. J. Murray, who found that John had a roll of \$160 and took it for safekeeping. This morning Recorder Lang gave John ten days in jail to straighten up.

ONE OF MANY ODD WAYS OF
MAKING A LIVING.

There are many odd ways of making a living in a great city. Here is a photograph of a young woman who is engaged in one of the oddest. She is Miss Rose Murray, who is "book doctor" for the New York Public Library. She lends all the old books. Some of them are as old as the dust so thick that she has to use the "gas mask" outfit in which she was photographed.

FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.
New York, Nov. 20.—Although gains were recorded at the opening of the stock market today, the advances scored in the initial dealings were not long maintained and before the end of the first fifteen minutes recessions were in order. The railroad stocks were weak, Delaware and Hudson declining 1 1/4 to 38 1/2, after selling up to 90 1/2. Canadian Pacific was off 1 1/4 to 132 1/2, and Union Pacific declined 3/4 to 115 1/2.

Steel Common opened from 95 1/4 to 95, followed by a decline to 94 1/4. Bethlehem Steel B after opening 80 1/2, yielded to 79 1/2. Reading advanced 3/4 at the start to 69, but quickly fell to 58 1/4. The copper stocks were strong, Utah advancing one point to 76 1/2, while American Smelting rose 3/4 to 74.

Marine Preferred rose 1 point to 94 1/2 and General Motors one point to 90 1/2.

After the reaction following the opening advances, the market developed a stronger tone, carrying prices to new high figures for the day. Bethlehem Steel B went from 79 1/2 to 81 1/4, while Steel Common after reacting 94 1/2, again moved up to above 95. Marine Preferred advanced to 95 1/2. SERVICE FLAG FOR
ST. JAMES CHURCH

One of the most interesting services ever held in St. James's Church was that held at the Sunday school session on Sunday last when a service flag containing twenty-seven stars was unfurled. The presentation address was made by Mayor Canfield in the usual eloquent manner characteristic of him. Appropriate to the occasion Chaucer's famous "Last We Forget" in the excellent style so well known to Kingston people. The quartet consisting of Messrs. Maines, Craig, Weekes and Burhans, accompanied by Mrs. William S. Eltinge, sang, "God Bless Our Boys" after which the Rev. Mr. Baragwanath asked that a silent prayer be given by all present for "Our Boys" who are not only sacrificing for us, but are enduring the hardships of war for our protection.

Prof. M. J. Michael in a most interesting address related his experiences in a recent visit to Camp Mills. He praised very highly the care that is given the boys by Uncle Sam and also the wholesome food served them in that camp. The boys who are now serving in the Army and Navy from St. James's Church are: Silas Beatty, Harry Ketterer, Robert Hunter, Charles G. Gabel, Charles West, Anderson Carl, Frederick M. Snyder, Fred D. Snyder, Kenneth Van Steenburgh, Joseph H. Riskey, Harold A. Styles, Benjamin Adams, Col. LeRoy Eltinge, Capt. Roy Gausman, Frank R. Clifford, Clifford Floyd Vogt, Albert Longyear, Ernest Warren, Webster Maschal, Ralph Martin, Clifford Sears, David Weiss, William E. DuBois, C. Preston DuBois, Kenneth Everett, Walter DeGraff, Archibald Leighton, Ralph Shultis.

EEKAMOOSE WAR STARTS ONCE MORE

the Happy Valley" of Mr. Dimock's
Writings Again in Court on Ac-
count of Disagreements Among Its
Inhabitants.

The Marquise Cecile de Wentworth is the plaintiff in an action in the supreme court against J. R. Williston, the well known broker of New York, in which involved the ownership of land at the headwaters of the Rondout at Peekamoose in the Catskills, referred to in Mr. Dimock's writings as "The Happy Valley." Mrs. Wentworth is one of the great artists of the world, having received the gold medal and the ribbon of the Paris Salon, and the gold medals of the Salons of Lyons and Turin. She received the first gold medal at Tours, and a gold medal for her portrait of the late Pope Leo XIII at the Exposition Universelle at Paris. She has been decorated with the Legion of Honor of the Republic of France, and was made a Grand Commander of the Order of the Holy Sepulchre at Rome. Pope Leo XIII, and has been decorated by Mohammed EnNacel Pachay of Turkey. She has painted as well the portraits of Chalmette Lacon, resident of the French senate; Queen Alexandra of England; President Theodore Roosevelt, the Archbishop Corrigan of New York, Ex-President William H. Taft, the late Pope Pius X., Cardinal Perini, General McClellan and many others. Mrs. Wentworth is the owner of about 1,500 acres of land at the head of the Rondout.

Mr. Williston and his wife own the 700 acres adjoining, and a dispute has arisen between them as to the title to a strip one chain wide extending along the bank of the creek. The title is part of the original Hardenbergh and Livingston patents, and is one of the great Indian grants originally made by Queen Anne in 1708, and conveyed by the Indians to Colonel Johannes Hardenbergh and Robert Livingston and their partners in 1766. The chief of the tribe was the well known warrior Mowhag, and the title comes down to Mrs. Wentworth through a long series of prominent owners.

This is the land regarding which Anthony W. Dimock, in his line one of the great brokers of Wall street, and John Quincy Adams Ward, the sculptor, were involved in litigation in this county twenty-five years ago. The case came on for trial before Judge Hasbrouck at supreme court chambers on Saturday, Mrs. Wentworth being represented by Brinley & Canfield as her attorneys, and Judge Clearwater as her counsel. Mr. and Mrs. Williston were represented by Frank W. Brooks as attorney, and Arthur E. Van Wageningen as counsel. Her proof of title was introduced. Mrs. Wentworth's husband, who is a descendant of Governor Benjamin Wentworth, the Colonial governor of New York, claimed that after the purchase in 1835 his wife and he went into possession, and have occupied it ever since. That during the last two or three years Mr. Williston trespassed upon this disputed strip of land; has torn down the cedar signs erected by Mrs. Wentworth, has erected posting signs of his own, has thrown household rubbish in cans and all sorts of other debris upon it, and in many ways has made himself offensive to her and Mrs. Wentworth, whereupon she decided the only way to prevent these repeated trespasses and annoyances was to bring an action for an injunction, which they did.

Mr. Williston claims to have acquired his title from Mr. Ward, the sculptor, who in turn acquired it from Colonel Jacob B. Hardenbergh of Danbury, Connecticut, a nephew of the great Jacob Hardenbergh in his lifetime a senator from this district, and the partner of the late Judge Augustus Schoonmaker, with whom Judge Clearwater studied law. The next hearing will take place on the 26th of this month.

Glasco, Nov. 19.—The regular monthly meeting of the Ladies' Aid Society will be held on Wednesday afternoon at the home of Mrs. Elsie Ten Broeck.

Deputy Sheriff DeCicco of East Kingston was in town Sunday afternoon. It was surmised that he came on a two-fold errand, business and pleasure combined.

A practical illustration of the scripture text, "Let there be light," will be demonstrated at the M. E. church as soon as the contract for electric lighting is completed. In the meantime contributions will be solicited to defray the expense. Brose up! Don't hide away when the dominie comes around.

The famous "Hudson sausage," made only by Van Deusen, which has for years past been a staple article

at every grocery, and an appetizing accompaniment of hot buckwheat cakes and maple syrup at the breakfast table, must now be classed as a luxury, because of the price which is 40 cents the pound retail. In former years it has sold as low as two pounds for a quarter.

Living Water Tank.
Perhaps the most notable specimen of self-watering plants is the so-called "water barrel" which, of about the size and shape of an ordinary beer keg, is in fact nothing more or less than a living water tank. Its whole interior is composed of storage cells so admirably arranged that the pulp which they form contains something like 98 per cent pure water.

Letter of Appreciation.

A letter received from Mrs. Joseph H. Vanderlyn expressing her appreciation of the action of the board at the time of the death of her husband, Supervisor Joseph H. Vanderlyn, was received and ordered spread in full on the minutes.

Resolution of Respect.

Supervisor Van Wageningen introduced the following, which was unanimously adopted:

"Death, while inevitable, seems the more deplorable always when youth and young manhood are stricken by it, and so the death of Joseph Hasbrouck Vanderlyn."

"While yet in the morning of his life, pre-eminent among his fellows, beloved by all who knew him, with an intellect and personal charm enjoyed by few and possessed of striking ability, he was suddenly halted in his journey upon the highway of life."

"Resolved, that the members of the board of supervisors of Ulster county deeply mourn the loss of the"

Honorable Joseph Hasbrouck Vanderlyn, whose death occurred since this board last convened in annual session; that by the adoption of this resolution it is the intention of the members of this board to give expression to their deep affection and respect for him and their appreciation of his ability and distinguished service while a member of this body."

"Further resolved, that the deepest sympathy be extended to his bereaved family and parent, and that a copy of this resolution, duly attested, be forwarded to them and published in the several papers published and printed in the county of Ulster."

"Further resolved, that when this board adjourns it adjourns out of respect and in memory of our late member, Joseph Hasbrouck Vanderlyn."

Discuss Merits of Towns.

A resolution by Supervisor Woolsey to raise \$82.50 on the town of Marlborough to pay interest on note held by Sands Haviland due in 1918, caused Supervisor Lyons to inquire whether Supervisor Woolsey was trying to keep the note running until the county paid it as he remembered the note as having run for some years. Last year, he said, Supervisor Woolsey had called him and Supervisor McElhone to account and now they thought it was their turn.

Supervisor Woolsey said some six or eight years ago when he became supervisor he received a legacy as supervisor of two notes against the town of Marlborough. One note he had succeeded in paying, and he believed his successor should be given an opportunity to pay the other. He desired at this time, he said, to call attention to the fact that although the town of Marlborough was one of the smallest in the county, it was assessed the highest. The town was composed principally of rocky ridges.

Supervisor McElhone interrupted to say that Marlborough was one of the richest towns of the county.

Supervisor Woolsey, in reply, said that when he heard riches mentioned it reminded him of Shawangunk (Supervisor McElhone's town) contained 40,000 acres and was assessed only for \$750,000, although it contained one man who had spent more than one million dollars for improvements.

Supervisor McElhone retorted that while Marlborough might be composed of rocky ridges, everybody knew what grew on them. His own town, Shawangunk contained quantities of forest land which were capable only of raising huckleberries, but now the state had prohibited burning over those lands and the woods not grow unless the lands were burned Marlborough ridges, on the contrary, produced rich fruit.

Speaker of town, said Supervisor Woolsey reminded him of the fact that when he was in Shawangunk the last time, he was told there was so much fruit there it was rotting; Shawangunk produced more than half of million bushels of fruit. It was one of the richest fruit sections, he knew of.

The resolution went over under the rule.

Other Resolutions Introduced.

Other resolutions introduced that were overruled were as follows:

By Supervisor Wilkoff, that \$1,600 be raised on the Highland lighting district.

By Supervisor Wilkoff, that \$2,000 be raised on the Highland water district.

By Supervisor Van Wageningen, that \$1,000 be raised on the town of New Paltz to pay state road bond and interest.

By Supervisor Catherwood, that \$720 be raised on the Napanoch lighting district.

By Supervisor Sagendorf, that \$100 be raised on the town of Woodstock for support of the poor.

By Supervisor Woolsey, that \$750 be raised on the Milton lighting district.

By Supervisor Woolsey, that \$150 be raised on the Milton fire district.

Resolutions Called Up.

The following resolutions heretofore introduced were called up and adopted:

By Supervisor Saxe, that amounts certified by town boards for cutting brush be levied against properties where brush was cut.

By Supervisor Lounsbury, that unpaid school taxes, with seven per cent in addition, be levied on properties against which they were assessed.

By Supervisor Rifenburg, that amounts of town abstracts certified by town boards be levied on the towns.

By Supervisor Rifenburg, that a tax of one per cent on capital stock, surplus and undivided profits be levied on shares of bank stock.

By Supervisor McElhone, that \$1,050 be raised on the county for the Walkkill-Newburgh Park road.

On motion of Supervisor Rifenburg, the board adjourned until 7:30 o'clock this evening.

Fined for Indecent Exposure.

Hanford Cross, a chauffeur, was found guilty by Recorder Lang after a trial and fined \$5 for indecent exposure of his person. Cross was arrested a few weeks ago but several adjournments have been taken and the hearing was finally completed Monday. Cross was defended by Frank W. Brooks while W. H. Grogan appeared for The People. The evidence against Cross was given by several high school girls. Owing to the nature of the testimony the trial was held with spectators excluded from the court room and only those interested in the case being allowed to remain. Cross is a married man.

The Holiday Trade.

Local merchants are preparing for a record holiday business and most of the merchants already have extensive Christmas stocks in. Owing to the general advance in prices of practically all kinds of merchandise the Yuletide tokens this year will cost a little more than they did last year, but in spite of this fact it is expected that the Christmas shopping this year will be very heavy. Already merchants are beginning to tell their patrons to do their Christmas shopping early. Many of the stores have put in a special stock of articles for appropriate tokens for "your boy" "somewhere at the front."
